CLAIMS AMENDMENTS

MARKED - UP VERSION

1. (AMENDED) A method [for selling a product, the method] comprising:
- conveying [the] a product to a customer before [a] an associated transaction term [of the sale] has been finalized;
 - determining a final value of the transaction term; and
 - completing [the] a sale of the product using the final value of the transaction term as a term of the sale.
12. (AMENDED) A method [for selling a product,] comprising:
- conveying [the] a product to a customer before a final sale price is determined;
 - if a first override price is received for the product, setting the final sale price to the first override price; and
 - if a first override price is not received for the product, setting the final sale price to a default price.
26. (AMENDED) A method [for selling a product,] comprising:
- authorizing conveyance of [the] a product to a customer before a final sale price is determined;
 - if a first override price is received for the product, setting the final sale price to the first override price; and
 - if a first override price is not received for the product, setting the final sale price to a default price.
31. (AMENDED) A method [for selling a product,] comprising:
- arranging a purchase transaction comprising an non-final sale price term, wherein the sale price term comprises a default price;

conveying [the] a product to [the] a customer;
receiving a first override price for the product;
replacing the default price with the first override price;
receiving a second override price for the product;
replacing the first override price with the second override price; and
completing the purchase transaction using the second override price as the sale price term.

34. (AMENDED) A method [for purchasing a product from a seller,] comprising:
initiating a purchase transaction comprising a transaction term having a default value;
acquiring [the] a product subject to the default value;
communicating to [the] a seller a first override value for the transaction term;
and
completing the purchase transaction using the first override value for the transaction term.

38. (AMENDED) A computer-readable medium that stores computer-readable instructions configured to direct [for directing] a processor to perform the method of claim 1.

39. (AMENDED) A computer-readable medium that stores computer-readable instructions configured to direct [for directing] a processor to perform the method of claim 12.

40. (AMENDED) A computer-readable medium that stores computer-readable instructions configured to direct [for directing] a processor to perform the method of claim 26.
